

WHAT CAN WE ACCOMPLISH TOGETHER THAT WE CAN'T ACCOMPLISH ALONE?

80% GHG reductions from buildings by 2030

A VIBRANT CULTURE OF TRANSITION TO A SMART, GREEN ECONOMY

Ottawa Energy Collective Impact is a long term, community driven multi-stakeholder project aiming to help Ottawa thrive in the smart, green economy.

The Ottawa community needs your leadership to ensure this project makes the impact future generations deserve.

Consider joining the Leadership Circle. Commitment includes championing the cause, four meetings to review and advise on core documents produced, and ideally attending our multi-stakeholder events Sept 18th 2018 and Feb 2019.

WHY FOCUS ON BUILDINGS?

49%

OF OTTAWA'S GHG EMISSIONS COME FROM BUILDINGS

Builders

City of Ottawa

Energy producers distributors

Ontario Building Code

National Carbon Pricing

Insurers Lawyers

Funders Investors

Retrofitters Engineers

Residents NGO's

Landlords Property Managers

We need the perspectives and commitment from all actors in the system to make such a bold change in our economy.
